Village of Saukville
Winter Newsletter 2012-13

Dear Friends,

Your Village Board has provided some interesting, positive, and forward thinking changes for the Village of Saukville in 2012. We devoted some extra time during the year to create the Village of Saukville **Vision – Mission – Strategic Priorities** which are described as follows:

Vision: The Village of Saukville is a dynamic, forward-thinking community focused on providing a high quality environment in which to live, learn, work, and play.
Mission: The Village of Saukville is dedicated to meeting our community's needs by providing high quality services in a safe environment through proactive, responsible planning and leadership.
Strategic Priorities: Promote and support residential, commercial, and industrial development. Pursue opportunities to partner with other communities. Engage business owners and residents. Adjust staffing and resources to maximize their usefulness.

The next step we took was to put **Action Steps** in place so we have concrete goals to work toward as well as a means to get there. Using these resources, we, as well as our successors, will be able to grow our fine community within a more focused and structured framework always being cognoscente of the needs of existing residents and businesses. The Vision, Mission, and Strategic Priorities have been disseminated throughout the organization. In addition, the Village's 2013 Budget reflects the staff's willingness to work toward implementation of these values. I will keep you posted on our journey and its results!

This past summer was hot, hot, hot and dry, dry, dry … but that didn't keep us from enjoying the weekly Farmers' Markets and the produce and crafts offered there. The "Live at the Triangle" events were also well attended and will continue to be offered provided we can obtain the necessary funding. Each year they grow as more folks learn how much fun these free family events are.

Fall activities included a very successful Pleasant Valley/Saukville Fire Department Car Show as well as a wonderful 9/11 Memorial March and Program. In addition, our Saukville Chamber hosted a Saukville Scare Run/Walk Halloween weekend which proved to be great fun. There were even participants from Michael Jacksons "Thriller"! Please know these events are only possible because of the wonderful volunteers we have here in Saukville. Thank you one and all!!

Speaking of "thank-yous", may I extend sincere thanks to each and every member of our Village Board, management team, and support staff for another excellent year of service. Please know that your time, talent, and energy are all noticed and appreciated!

Also in October, the Character Counts! Initiative honored Joann Wiesner for all of her fine service to our Village. This was done at the annual Character Counts! resigning event. Congratulations, Joann, and thank you!

Believe it or not and as you can see, HWY 33 between Port Washington and Saukville is now completed after two years of construction. Our Police Department reports that the roundabouts have proven to be safer than the traffic signals and we hope that trend will continue. There is concern for those automobiles that attempt to make a left-hand turn at Plaza Drive (between EVS and Walmart) which is now illegal. West bound traffic from Walmart needs to go through the roundabout intersection at Market Street for safe and legal passage.

During 2012, Schmit Bros. has hosted several different events all marking their 100th year in business. This family run business has been handed down to its current owners … brothers, Mike and Jim Schmit … from two other sets of brothers … one team starting the business and one team continuing it prior to Mike and Jim. Congratulations to Schmit Bros. and continued success to all of you!!!

Saukville has reported modest growth in 2012 and has also reconfirmed its Municipal Bond Rating as Aa3. As a result, the Village was able to borrow the necessary funds to complete the HWY 33 project at a much lower interest rate … resulting in tax savings for each and every one of us.

As stated earlier, the Village Board has completed its work on the Village's 2013 budget. This budget is, of course, drafted within State imposed levy limits and qualifies for Expenditure Restraint funds. It does, however, include a minor tax increase which was necessary to maintain necessary services as well as make payments on debt incurred in the HWY 33 project.

Please know that the Village Board continues to reexamine each and every department in an effort to look for greater efficiencies wherever possible. The Board welcomes input from Management staff as well as support staff in this process. We have a great team here in Saukville and it is important to note that all of us work together to make this the wonderful place it is in which to live.

Your input is also important so that we have a complete picture of needs and ideas. I can be reached at bdickmann@-village.saukville.wi.us . Your thoughts will be shared with and discussed by the Village Board.

If you have a greater interest than emailing me, please stop by Village Hall to pick up papers to run for Village Board or Village President in the spring election. Staff will help you through the process of getting your name on the ballot. There will be three Trustee positions and the Village President position open at that time.

As I close, I'd like to offer to you and yours very best wishes for a warm and healthy holiday season. May you be surrounded by those you love and who love you in return!

In service,

Barb

Snowplow Safety

Treat the snowplow crews with courtesy and caution! Keeping clear of their operations allows them to do their job quickly and efficiently.

- Do not park on the street if you see a plow approaching ;
- Don't pull out in front of a plow at the last second;
- Keep at least 300 feet of distance from the rear of a plow as it may stop or back up without warning.

Snow and Ice Removal

Please refer to attached flyer (next page) for complete snow removal information.

Christmas Tree Chipping

Mark your calendars. Christmas trees will be chipped curbside by the Public Works Department on **Mondays, January 14th and January 21st**. The following rules apply: Remove all decorations, wire, tinsel, hardware, lights, and stands from tree - no cloth, paper, or plastic cover bags. Place trees curbside no sooner than 24 hours prior to the day of chipping and no later than 7:00 a.m. that day. Do not bury the trees in snow. The chipper will make only one pass per street side per chipping event. Disposal of trees prior to or after the scheduled dates will be the homeowner's responsibility. *Do not put trees out for regular trash pick-up. Veolia Waste Services will not take them.*

Kudos to the DPW Crew! This is the 10th year in a row the DPW has provided a "Snowplow Ride to School" for one "winner and a friend" of the Saukville Elementary School Fall Festival Raffle.

Mailbox Accessibility

Homeowners are responsible for keeping their street mailbox drive-up accessible for U.S. Mail vehicles. Please be sure to clear snow from the curb area around your mailbox after a snow-fall so that mail vehicles can access your mailbox.

Village plow crews do their best to avoid damaging mailboxes, but it still happens on occasion. It is not the Village's policy to repair damaged mailboxes. Experience has shown that most mailbox damage occurs when the mailbox projects too far into the street or the posts are rotten or weak. Keeping the furthest projection of the mailbox at least two (2) inches behind the back of the concrete curb is recommended.

Household Hazardous Material Disposal

- These materials are typically comprised of paints, pesticides, waste oil, anti-freeze and typical household cleaners.
- DO NOT place these materials in the garbage.
- Take to the **Veolia ES Technical Solutions** site at:
  1275 Mineral Springs Drive, Port Washington
  Hours: Every Monday 8:00 a.m. - 5:00 p.m.
  Household Hazardous Waste Info. Hotline: 262-243-8998
- Fees will be charged on a per pound basis.
- **NOTE:** Waste oil may also be taken to the Ozaukee County Highway Department, 410 South Spring Street, Port Washington.

Emergency Management - Winter Weather Facts

Winter weather can arrive at any moment. Are you prepared? Now is the time to review your emergency planning - check the contents of your emergency kits; replace items that were used or are outdated; check vehicles to ensure they are ready for the abuse winter weather will bring. Have your furnace inspected. When was the last time you had the fireplace chimney checked and cleaned? Do you have a carbon monoxide detector installed? When did you last replace the batteries in it or in your smoke detectors?

Review your family emergency plan. Is it up to date; are the contact numbers current; do you have them programmed in all your phones? When was the last time you sat down and reviewed your plan with family members?

Plan your travels and check the latest weather reports to avoid storms. Keep your gas tank near full to avoid ice in the tank and fuel lines. Carry a winter storm survival kit in your vehicle that includes:

- Blankets or sleeping bags
- Flashlight with extra batteries
- First-Aid Kit
- Shovel, tools, booster cables, and windshield scraper
- High-calorie non-perishable food & something to drink
- Sand or cat litter to use for traction

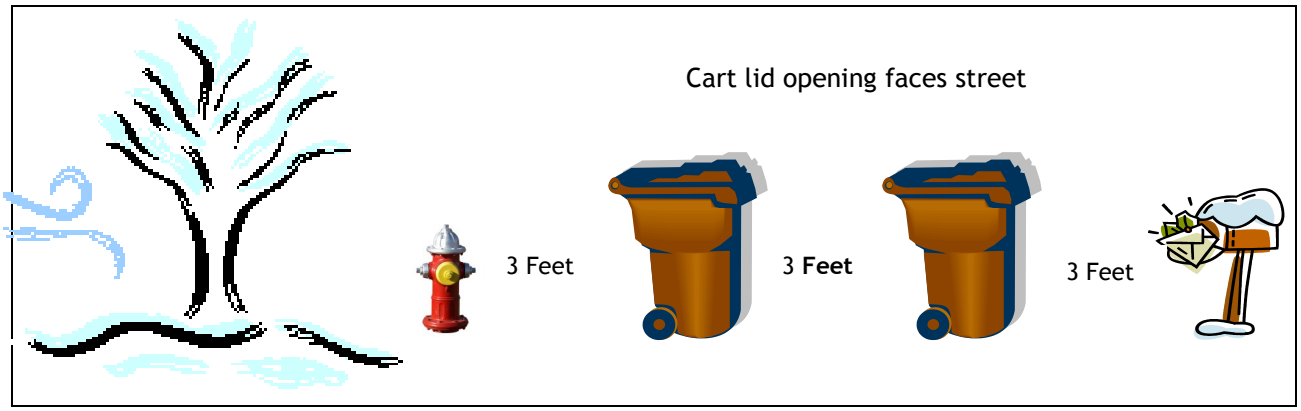
AS THE SNOW FALLS…

The **Village of Saukville Public Works Department** reminds all Village property owners that resident cooperation is essential to the success of winter snow removal operations.

Residents can help in the following areas:

- **Trash/Recycling Cart Placement:** Cart must be placed with lid opening toward the street at the back of curb or shoulder, with a minimum of 3 feet between cart(s) or other obstructions.
- **Utilize your driveway or clear an area along the side of your driveway to safely place your recycling and refuse container.** Maintaining proper clearances as shown below will make it safer and easier for collection personnel and automated equipment to efficiently empty your containers.



- **Do not shovel or blow snow into the street.** This creates a hazardous condition for motorists and may require return trips by the snowplow to clear the street. In addition, State Statutes and Village Ordinances prohibit this action and doing so may result in a fine.
- **Shovel snow to the right hand side of your driveway as you face the street.** This helps to reduce the amount of snow pushed into your driveway by snowplows clearing snow from the street.
- **Move parked vehicles off of the streets prior to snowfall events.** Parked cars are a hindrance to snow removal operations, requiring more time and costly return trips to effectively clear the streets. Residents are asked to move their vehicles off the street whenever snow accumulations are forecasted.
- **Remove sidewalk snow to the front yard instead of the area between the sidewalk and the curb.** This provides more snow storage capacity between the sidewalk and the curb for snow removed from the street.
- **Check the condition of your mailbox and post.** In most cases, a strong post and secure mailbox will withstand the impact of snow coming off of the snowplow.
- **Shovel snow from around your fire hydrant.** Please clear snow away from fire hydrants located near your property. This effort helps the Fire Department and the Water Utility to manage the water supply system and to quickly respond to emergencies.

Thank you for your assistance in the success of our winter snow removal operations.

High Water Bills and Water Leaks in Homes

Your water bills are determined by Saukville Water Utility staff reading your water meter. When your water bill becomes higher than normal, there is usually a leak in your home. 95% of all leaks are toilets and most times you cannot hear the leak. We recommend that you check your toilets every six months to make sure they are not leaking. Place a drop of natural food coloring in the tank - do not flush. Check it in 20 - 30 minutes. If color appears in the bowl, it is leaking water. The toilet most likely leaking is the toilet rarely used. This is also a good time to operate all of your valves in your home and to start reading your meter weekly to make sure you have no leaks and that you are only billed for the water you use.

Cold Weather Tips - Protect Your Plumbing!

It's ironic, but homes in mild winter climates are especially vulnerable to frozen pipes. Why? Because they tend to have plumbing in exterior walls, attics, crawl spaces, and other unheated or unprotected areas. All it takes to freeze the pipe is a cold snap that drops the outside temperature below 20 degrees. If pipes are at risk in mild climates, it is not difficult to imagine what can happen in more frigid zones. When water freezes inside a pipe, it creates a blockage that causes pressure to rise. The pressure builds up and the pipe blows. Play it safe and follow some simple tips for keeping water pipes warm and cozy:

- Wrap pipes with foam or fiberglass insulation.
- Seal openings in exterior walls where cold air can get to unprotected pipes.
- Disconnect garden hoses and place insulated covers over outdoor faucets. Better yet, install inside shut-off valves for outdoor faucets and drain water from pipes.
- Leave cabinet doors open to let warmer room air get to the pipes under kitchen and bath sinks.

Payment Option

You can pay your Village water utility bill online! Just go to the website - www.officialpayments.com - click on Local; Wisconsin; Saukville, Village of; utility payment; then enter the amount of payment and appropriate information. There is a convenience fee of 2.75% for credit card use and a flat fee of $2.75 for e-checks. We also offer **automatic withdrawal** from your checking or savings account. Your quarterly payment can be deducted automatically from your selected account on the 25th of the billing month. You can go to the Village website at www.village.saukville.wi.us to download a form to sign up for automatic withdrawal.

Medications

Please do not discard old medications by flushing them down the toilet or throwing them in the trash. This is unsafe and can lead to harmful substances in our water supply. Save them in their original containers in a safe place and drop them in the Med-Return Collection box located in the lobby of the Village of Saukville Police Department during normal business hours. See Police Dept. section for complete information.

Adopt a Fire Hydrant

Fire hydrants are often overlooked as requiring clearing of snow and ice. Hydrants protect YOUR property. Keeping them accessible will result in saving precious time crucial to firefighters responding to an incident in your neighborhood. After extreme amounts of snow, the Utility crews will clear the hydrants as time allows, but this should not be relied upon as a routine service.

Cross Connection Inspections

In order to reduce overall costs for compliance with DNR Regulation NR810.15, the Village of Saukville Water Utility has contracted with Hydro Designs, Inc. (HDI) of New Berlin, Wisconsin to assist in managing our Cross Connection Control program.

A cross connection is a direct or potential connection between any part of the public water supply system and a source of contamination or pollution. The most common form of cross connection is a garden hose, which is easily connected to the public water supply system and can be used to apply a variety of potentially dangerous substances, including chemicals and fertilizer. Other common cross connections include dishwashers, toilets, pressure washers, boilers, pools, and lawn sprinkler systems.

HDI will send notices to, and will perform inspections of residential, commercial, and industrial buildings throughout the Village to detect actual and potential cross connections and make recommendations for the installation of backflow prevention devices or assemblies where necessary. There is no fee for the inspection, however, all costs associated with the replacement, modification, installation and/or testing of backflow prevention assemblies is the obligation of the property owner. This procedure will help ensure that contaminated or polluted water cannot backflow into clean drinking water.

Plugged Sanitary Sewer Lateral

If you find water standing in your basement, stop using water in your house. Then watch the height of the water on the basement floor. It should stop coming up and it should stay the same or go down slowly. This shows you that you have a plugged sanitary sewer lateral that leads to the main sanitary sewer line and you should call a plumber immediately. Remember that your low flow 1.3 gallon per flush toilet has very little water to flush the solids out through the lines. Be careful what you try to flush down your sanitary sewer line. A lot of paper product in your toilet requires a lot of water to move it along. If you have questions, please contact the Saukville Wastewater Plant at 262-284-3185.

Sump Pumps

Please remember to check your sump pump and make sure it is hooked up correctly to the discharge lateral and **not** to the sanitary sewer system. Per Village Ordinance, it is illegal to hook-up or discharge storm water or clear water into the Village's sanitary sewer lines. Since all discharges to the sanitary sewer end up at the treatment plant, this creates additional problems to properly process the wastewater for eventual discharge to the river. If you have any questions, please call the Utility Department at 284-3185.

SAUKVILLE IS A CHARACTER COUNTS! COMMUNITY

The Character Counts! Initiative was established in our community in 2006 and has continued to grow with each passing year. Character Counts! is a national initiative that is designed to promote good character both in and out of the classroom, on and off the sports field, away from home, and interacting socially with each other. By bringing Character Counts! to our area, we have formed a "coalition" between City/Village governments, the business community, special interest groups, and the PW-S School District to fortify the lives of our youth with consensus ethical values called the **Six Pillars of Character**. These values, which transcend divisions of race, creed, politics, and wealth are: **Trustworthiness, Respect, Responsibility, Fairness, Caring, and Citizenship**. For more information, please contact Village Hall or refer to the link on our website. If you are interested in becoming involved in our local Character Counts! Initiative, or would like to make a cash donation to support program needs, please contact the PW/S School District - District Office at 262-268-6000, or on the web at http://pwsccc.org/

Saukville Fire Department

520 West Dekora Street
262-284-5800 (non-emergency)

The members of the Saukville Fire Department wish everyone a happy holiday season. As you decorate your homes and businesses for this joyous season, remember to practice fire safety in your selection and use of decorations.

It was a very busy summer and fall season for the fire department as we hosted or participated in a number of community functions: "National Night Out", Pleasant Valley/SFD Car Show, 9/11 Memorial March & Ceremony, Fire Prevention Open House and Fire Prevention Week activities, and "Trick or Treat" safety patrol. We thank everyone who assisted and participated in the annual Pleasant Valley Auto Body/Saukville Fire Department Car Show. The weather was great and we had another wonderful event this year.

The Fire Department, along with the Police Department and the American Legion, sponsored the 9/11 Memorial Silent March & Ceremony held on September 11th. This was yet another moving ceremony. If you are interested in helping to plan or to participate in the 2013 program, please contact Lt Richard Schoenfeldt at 262-284-9747.

COME JOIN OUR TEAM & BE A PART OF YOUR COMMUNITY!

The Saukville Fire Department is currently seeking volunteers. If you are interested in serving your community as an EMT or firefighter, consider becoming a part of our team. Schooling and training is provided. To apply, you must be over the age of 18, have a high school diploma or GED, be a resident of the Saukville Fire Department protection area or work within the Village and be able to leave work to answer calls. Application forms are available at Village Hall or on the Village website. Call the Saukville Fire Dept. at 262-284-5800 with any questions and leave a message.

We are still welcoming historical Information surrounding the Saukville Fire Department. Please check your closets, attics, and basements for fire department memorabilia relating to the past history of the department. Share the past with us. Contact Lt Richard Schoenfeldt at 262-284-9747 if you have items to share.
