

AS THE SNOW FALLS...

The Village of Saukville Public Works Department reminds all Village property owners that resident cooperation is essential to the success of winter snow removal operations.

Residents can help in the following areas:

- **Trash/Recycling Cart Placement:** Cart must be placed with lid opening toward the street at the back of curb or shoulder, with a minimum of 3 feet between cart(s) or other obstructions.
- **Utilize your driveway or clear an area along the side of your driveway to safely place your recycling and refuse container.** Maintaining proper clearances as shown below will make it safer and easier for collection personnel and automated equipment to efficiently empty your containers.

- **Do not shovel or blow snow into the street.** This creates a hazardous condition for motorists and may require return trips by the snowplow to clear the street. In addition, State Statutes and Village Ordinances prohibit this action and doing so may result in a fine.
- **Shovel snow to the right hand side of your driveway as you face the street.** This helps to reduce the amount of snow pushed into your driveway by snowplows clearing snow from the street.
- **Move parked vehicles off of the streets prior to snowfall events.** Parked cars are a hindrance to snow removal operations, requiring more time and costly return trips to effectively clear the streets. Residents are asked to move their vehicles off the street whenever snow accumulations are forecasted.
- **Remove sidewalk snow to the front yard instead of the area between the sidewalk and the curb.** This provides more snow storage capacity between the sidewalk and the curb for snow removed from the street.
- **Check the condition of your mailbox and post.** In most cases, a strong post and secure mailbox will withstand the impact of snow coming off of the snowplow.
- **Shovel snow from around your fire hydrant.** Please clear snow away from fire hydrants located near your property. This effort helps the Fire Department and the Water Utility to manage the water supply system and to quickly respond to emergencies.

Thank you for your assistance in the success of our winter snow removal operations.
